TOPIC: Increase in hour requirement for the HPE major

DATE: September 4, 2008

On February 3, 2005, the Board of Regents approved a waiver of the 120 semester hour rule for BSED majors in early childhood education, middle grades education, health and physical education, and special education to require up to 129 hours (see: http://www.usg.edu/p16/resources/educators/epaac.phtml). The faculty in the Department of Kinesiology have voted to change the number of hours required for the Health and Physical Education Major from 120 to 129. This change in hours reflects a strengthening of several courses required for the major and the intensive field experiences necessary to prepare high quality teachers. I have submitted the change in hours for the courses within the CAPA system. Please do not hesitate to contact me with questions.

Approved:
