Academic Affairs Policy Statement No. 3

Minors

1. References

   a. Academic & Student Affairs Handbook, Board of Regents, University System of Georgia, April 2011 (2.3.1 Majors and Minors).
   b. New Degrees or Major Programs. Academic Affairs Policy Statement No. 1, the University of Georgia, October 1989.
   d. Last updated April 2019.

2. Objective

   The objective in instituting a minor field of study at the University of Georgia is to encourage and officially acknowledge the attainment by students of a fair measure of expertise and knowledge in more than one academic field.

3. Policy

   a. The option to create a minor and the formulation of requirements for a minor are curriculum decisions; therefore, they should originate from the faculty of the academic unit offering the minor.

   b. Ordinarily, a minor may be offered only in a field for which there exists a corresponding major. Exceptions may be made if (1) the proposed minor is in a recognized academic field or discipline, and (2) the University has in place sufficient courses, faculty, and facilities for the offering of the minor.

   c. The availability and requirements of a minor will appear in the Bulletin. Proposals for a new minor should include the total number of hours required, along with the enumeration of any particular courses that are mandated or excluded, residency requirements (if any) for the minor courses, and grade requirements for minor courses if those requirements differ from the general University standard for credit (a D as the minimum passing grade). Board of Regents' policy states that a minor must contain 15 to 18 semester hours of coursework with at least 9 hours of upper-division coursework (numbered 3000 or above). Courses taken to satisfy Core Areas I through V may not be counted as coursework in the minor. Core Area VI courses may be counted as coursework in the minor.

   d. A student may have more than one minor. Students must be currently enrolled in a major program to pursue a minor.
e. The intent of establishing minor fields of undergraduate study is to offer students the opportunity to broaden their education through the minor field. The selection of a minor field of study should be made to fulfill this goal.

f. A student may select a minor in consultation with the advisor in the major field. The student may then consult an advisor in the minor field, who can inform the student of remaining requirements for the minor. When the student has met the requirements for the minor, the advisor in the minor field will then certify that fact to the student's dean. The completed minor will be recorded on the student's permanent transcript but not on the diploma. For students completing a minor before graduation, the minor will appear on the transcript at the time of graduation. For students completing a minor after graduation, the statement shall appear on the transcript in chronological order following the courses taken subsequent to graduation.

g. A student must be enrolled at the time a minor is approved by the University Council, or subsequent to that date, to receive credit for the minor.

4. Procedure

Proposals for new minors should be routed through the following approval sequence:

a. Faculty of the academic unit proposing minor
b. Department Head or Director of academic unit proposing minor
c. Dean or Vice President of academic unit proposing minor
d. Office of Instruction (for review)
e. Senior Vice President for Academic Affairs and Provost
f. University Curriculum Committee
g. Executive Committee of the University Council
h. University Council
i. President
j. Board of Regents (for notification)
