

## **Formal Proposal for a Transfer Admission Agreement between Another Institution and the University of Georgia**

The attached document establishes a transfer admission agreement between another institution and the University of Georgia for admission to a specific degree program. In entering into this agreement, the sending institution specified and the University of Georgia have several goals, which include:

- Assisting prospective transfer students at the sending institution to progress toward their baccalaureate degree goals;
- Enabling the sending institution students to follow a course of study that allows them to begin upper-level coursework immediately upon transfer;
- Assuring the sending institution students that if they follow the terms of their approved transfer agreement, they will be admitted to the degree program specified in the agreement at the University of Georgia in the term agreed upon;
- Facilitating cooperation between the counseling offices and the transfer centers at their respective institutions.

The University of Georgia in partnership with the sending institution has developed transfer procedures to implement this agreement. To assure that the transfer admission agreement remains current, the respective parties to this understanding agree to consult regularly on issues of enrollment, articulation, and program change. The goal of both the sending institution and the University of Georgia is to minimize barriers to transfer and to increase the number of students who successfully complete the baccalaureate degree.

Students who are dually enrolled (such as MOWR, ACCEL, or joint enrollment) at their high schools and the sending institution are not eligible for a transfer agreement, but must apply to UGA as freshmen students for the term following their high school graduation.

Please provide a brief justification for the transfer admission agreement in the box below:

Complete College Georgia: Georgia's Higher Education Completion Plan 2012 provides the framework for the state's two systems of higher education to increase the number of young Georgians who hold college credentials. Projections indicate that 60 percent of all jobs in 2020 will require applicants to have graduated from college. Today, only 42 percent of young Georgians are college graduates. Member institutions of the state's two higher education systems will need to graduate 250,000 students beyond normal graduation levels to reach the 2020 goal of ensuring that 60 percent of all Georgians between the ages of 25 and 34 will have earned college credentials.

Developed jointly by the Technical College System of Georgia (TCSG) and the University System of Georgia (USG), the Complete College Georgia plan provides unprecedented opportunities for the two higher education systems and their member institutions to form partnerships to improve student persistence and graduation rates and to work together to achieve the 2020 goal. The Complete College Georgia plan calls for the implementation of articulation and transfer agreements to "provide students with important paths for transitioning within and across systems of higher education." The completion plan notes further:

"The University System of Georgia has one of the most comprehensive guarantee agreements for transfer of general education courses between its institutions. However, many students also transfer from the Technical College System of Georgia to the University System of Georgia, and vice versa. While some steps have been taken to ensure general education course transfer between our two Systems, it is important to offer even greater articulation in support of the state's college completion goals."

This transfer admission agreement provides students who graduate from the associate of science degree program in Consumer Economics at Southern Crescent Technical College (SCTC), and who meet the FACS transfer admission requirements at UGA, with the opportunity to enroll in a baccalaureate degree program as a rising junior. The core curriculum of the associate degree program is modeled on the core curriculum requirements established by the University System of Georgia (USG). The core curriculum of the associate of science degree program includes courses that are taken from either the articulation agreement between the TCSG and USG (the "mini-core") or from courses currently accepted in transfer by UGA. The major-specific courses included in the associate of science degree program are either already accepted in transfer to UGA or have been selected for development and delivery at Southern Crescent Technical College for transfer to UGA as a result of articulation meetings held between Family and Consumer Sciences and Southern Crescent Technical College representatives. This admission agreement is grounded in the core principle of recognizing the quality and integrity of institutions of higher education that hold regional accreditation. All associate of science degree courses identified in this agreement will be taught by Southern Crescent Technical College faculty who meet the credentialing guidelines of the Southern Association of Colleges and Schools Commission on Colleges. This agreement has been approved by the faculty at both institutions.

To ensure that this transfer agreement remains current, representatives from each institution will confer annually to review and implement program/course revisions and review and revise materials used to communicate the content of the agreement to prospective students. Termination of the agreement for due cause may be invoked by either party with two years' notice.

## I. General Provisions of the Agreement

The following information outlines an admission agreement between  
Southern Crescent Technical College (SCTC) and the Consumer Economics B.S.F.C.S.  
Sending Institution Acronym\* Program Name and Degree

program at the University of Georgia (UGA). This agreement will be reviewed after three years  
by Southern Crescent Technical College and the University of Georgia to determine if the agreement  
Sending Institution  
will be continued.

1.1 The Transfer Admission Agreement will be in effect starting Fall 2015.  
Term and Year

1.2 SCTC students who fulfill the criteria listed below are assured admission to the

## II. Conditions of the Agreement

To qualify for the Transfer Admission Agreement, students must:

- 2.1 Submit the Undergraduate Application for Admission to UGA during the last semester at SCTC Institution\* prior to completion of the associate's degree but before the UGA application deadline (see [www.admissions.uga.edu](http://www.admissions.uga.edu) for deadline). Students whose last semester at SCTC Institution\* is a spring semester must meet the appropriate deadline (see [www.admissions.uga.edu](http://www.admissions.uga.edu) for deadline) but may submit a form requesting a file completion deadline of June 1. This would allow the term enrolled to count towards the hours and grades needed for admission.
- 2.2 Earn a minimum cumulative GPA and transferable hours that meet UGA requirements at the time of transfer.
- 2.3 Complete the \_\_\_\_\_ program ( 60-63, see attached) at SCTC .  
Program or Certificate Name Credit Hours Institution\*
- 2.4 Be in good standing at SCTC Institution\* and have no conduct or behavior issues when reviewed by UGA Admissions.
- 2.5 Have cleared any CPC issues prior to applying to UGA.
- 2.6 Meet the following additional conditions (Please attach an additional page if needed):
- SCTC graduates who fulfill the requirements below will gain admission to UGA as rising juniors:
  - Graduate from the associate of science degree program in Consumer Economics at SCTC.
  - Pass all courses identified in the Curriculum section of this agreement with a grade of C or higher.
  - Complete at SCTC the science lecture/lab sequences in the Area II - Sciences section of this transfer admission agreement with a grade of C or higher.\*\*

\*\*Students transferring to SCTC must complete both lecture/lab courses in the science sequence at institutions within the Technical College System of Georgia (TCSG) or both at one non-TCSG institution with courses currently accepted in transfer by UGA.

All policies and procedures of the Board of Regents of the University System of Georgia, the Southern Association of Colleges and Schools, the University of Georgia, and the sending institution will be applicable to this agreement.

### **III. Curriculum Requirement**
